ABDULBASIT AJIKANLE IMRAN

FULL-STACK DEVELOPER | WEB APPLICATIONS | DIGITAL SOLUTIONS

Lagos, Nigeria · +234 813 688 4982 · aajikanle@gmail.com

GitHub: github.com/bazseet · LinkedIn: linkedin.com/in/abdulbasit-ajikanle-imran-57267b125

PROFESSIONAL PROFILE

Computer Engineering graduate and technology professional combining hands-on web development with business operations and technical support experience. Builds responsive websites and web applications using JavaScript, React, Angular, Python, Django and Node.js, with experience in REST APIs, relational and document databases, and practical digital solutions. Brings a business-focused approach to understanding requirements, improving workflows and delivering useful technology.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React, Angular, Vite, Bootstrap, responsive UI
Backend	Python, Django, Node.js, Express, REST API development
Data	PostgreSQL, MongoDB, Neon, Drizzle ORM
Tools & practices	Git, GitHub, API integration, debugging, technical documentation, deployment workflows
Additional	IoT, Python scripting, AI/ML fundamentals, business analysis, technical writing

SELECTED DEVELOPMENT PROJECTS

JOKBIS Laundromat — Business website

Developed a responsive business website presenting services, pricing estimation and customer booking pathways. Live: jokbislaundromat.com

Till Dawn Driving Academy — Corporate website

Built a website presenting driving training programmes, curriculum, pricing and enquiry information. Live: tilldawndrivingacademy.com

OrenteByNoor — Fashion showroom website

Developing a React/Vite digital showroom for a made-to-order fashion brand, with brand-led styling and collection presentation.

Agbolyon Creative Services — Renewable energy website

Developing a corporate website concept covering solar, inverter and battery systems, maintenance, commercial solar and windmill installation.

PROFESSIONAL EXPERIENCE

Regional Manager | JOKBIS Ventures | Jan 2018 – Present

Coordinate multi-outlet operations, sales performance, inventory management, staff supervision, supplier relationships and process improvements. Collaborate on internal tools such as inventory tracking and daily sales reporting.

Infrastructure & Support Technical Engineer | Botosoft Technologies Limited | Jan 2023 – Present

Support infrastructure and technical operations, troubleshoot devices and systems, and contribute to reliable technology delivery.

Site Engineer | KT Nigeria Limited | Jan 2015 – Present

Support site engineering activities, coordinate technical requirements and work with project stakeholders to maintain safe and efficient operations.

Installation Engineer | MIKANO International Limited | Jan 2014 – Present

Supported installation and commissioning of power systems, site surveys, troubleshooting, client coordination and technical reporting.

EDUCATION

B.Eng., Computer Engineering — Ahmadu Bello University, Zaria, Kaduna | 2024 | CGPA: 3.64/5.00

National Diploma, Electrical/Electronics Engineering — Kwara State Polytechnic | 2016 | Upper Credit

PUBLICATIONS & PROFESSIONAL AFFILIATIONS

Co-authored research publications in IoT-enabled waste monitoring, smart agriculture, robotics and related engineering systems (2024). Presented research at IEEE NIGERCON 2024 and the Third International Engineering Conference (03IEC24). Graduate Member, Nigerian Society of Engineers (NSE); Pupil Engineer, COREN.
